

PFR36-120

DESCRIPTION

REAR DIFF MOUNTING BUSH

INSTALLATION GUIDE

Contents (parts per pack):

- 2 x Polyurethane A bushes
- 2 X Polyurethane B bushes
- 2 x Stainless steel sleeves
- 1 x Grease

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a quide and in conjunction with workshop manual. It is recommended that:

- all work to be carried out by a licensed technician;
- all safety precautions adhered to;
- wheel alignment to be checked and adjusted as required after any suspension work. All fasteners must be tensioned to manufacturer's torque settings.

Fitting Instructions:

- Remove the original rubber bushes from the diff housing. Clean any dirt and corrosion from the bore of the sub-frame and end faces. Remove any sharp edges using a file.
- Fit the A bush, marked Upper, into the housing from the top side. 2.
- 3. Fit the B bush, marked Lower, into the housing from the underside.
- Apply some of the supplied grease to the bore of the bushes and insert the sleeve. 4.
- 5. Refit the diff onto the sub-frame, re-use the original lower washer and nuts. Tighten all hardware to manufacturers recommended toque settings.
