

PART NUMBER

PFR5-606

DESCRIPTION

## REAR TRAILING ARM BUSH

## INSTALLATION GUIDE

## Contents (parts per pack):

8 x bushes (4 A parts & 4 B parts)

4 x stainless steel sleeves

1 x grease

Please read the complete fitting instructions and check package components before fitment.

These fitting instructions are to be used as a guide and in conjunction with workshop manual.

It is recommended that:

- all work to be carried out by a licensed technician;
- all safety precautions adhered to;
- wheel alignment to be checked and adjusted as required after any suspension work.

All fasteners must be tensioned to manufacturer's torque settings.

## Fitting Instructions:

- Before removing the original bushes note that the original bushes are offset in the arm.
- The new bushes comprise of an A & B polyurethane part, the A part has a thicker top section and the B part a thinner.
- Remove the original bush from the arm, clean any dirt, rust and sharp edges from the hole.
- Fit the A bush (thicker) from the inside face out-wards and the B bush (thinner) from the outside face in-wards replicating the offset of the original bush.
- 5. Apply some of the supplied grease to the bore and end faces of the bushes.
- Fit the sleeve into the bush.
- 7. Refit to the car following manufactures guide and torque settings.
